# MEDIA RELEASE

3 March 2017

## Materials Needed for Road Repair

---

The shire is currently seeking information on locations and availability of road building materials throughout our locality.

In several weeks, the Shire will be advertising for tender works, to undertake repair works to our road network which will run through the Western Australian Natural Disaster Relief and Recovery Arrangement (WANDRRA).

The Shire will require the following materials:

- Borrow (Fill material)
- Gravel (construction)
- Rock (Spalls and Boulders)
- Sand (Fill material and clean fill for compaction)

If you are prepared to assist in reconstruction of your road network, please contact the Shire Office on 08 9890 2500 and leave details on location of material, lot number, road name and the type of material you may be able to provide.

As we gather more information on actual road conditions, we will contact material providers in central work locations, to discuss your requirement on rehabilitation and supply.

ENDS

FOR MEDIA COMMENTS PLEASE CONTACT:
